Terms of Reference (ToR) for Baseline Study on Drug Addiction in Bangladesh

1. Background: Drug addiction has already reached in an alarming situation, and as the days are passing, this is turning in to a grave situation. By watching, different media, the nation as a whole is in panic with the consequence of increasing trend of using diversified addictive items. It seems like that access to the destructing elements is so easy that once one asks for them, these reach at his/her door-step at affordable prices.

In view of the above circumstances, we need to do something drastic without any delay to come out from this evil situation. Otherwise, the whole nation may immediately start suffering so much which will go beyond recovery and repair. But before taking any policy or action plan we should know the situation factually. Under the above perspectives, Narcotics Control Department has come forward to immediately undergo a series of studies for wiping out this grave evil from this soil. This document serves as ToR for the first study of the series which is titled as 'Baseline study on Drug Addiction in Bangladesh'.

2. Broad Objective of the study: The study is targeted to understand the evolution and current status of drug addiction in Bangladesh. It is expected that the study will reveal a solid understanding of both demand and supply sides of the different drugs used in Bangladesh.

3. Broad areas of Study: Study is required for all possible means & categories of drug addiction and original sources of drug supplied in the country. It will include different types of market and marketing spots in the country for handing over drugs and sale of the same to the end-users, wholesale and retail prices. The study will also look into groups and types of people and entities directly and indirectly involve in drug trafficking, different transports (including trafficking by walking and by courier and other services) used for trafficking purpose, including the mechanism adopted in this drug trafficking.

4. Scope of Work:

- Listing out different categories of drug with their specifications, including origin and wholesale and retail prices;
- Finding out details of the original sources of drug supply in the country;
- Listing out details of the medias (wholesale and retail) involved in the drug supply chain up to its end-users/consumers;
- Listing out details of different types of market and marketing spots in the country engaged in handling and handing over drugs and sale of the same to the end-users;
- Finding out categories and types of people and entities directly and indirectly involve in drug trafficking in the country;

- Listing out different transports (including trafficking by walking and by Courier and other services) used in drug trafficking activities, including the mechanism adopted in these activities; and
- Suggesting remedial measures in these regards.

5. Suggested data collection points for the study:

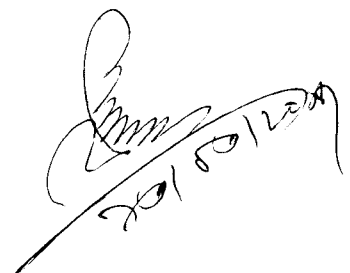

For finding out the major drug smugglers/suppliers, including different varieties of drugs etc., seven cities of the country, port areas, different gambling places, including major drug trafficking routes and entries in the country, hill tract areas, tea garden labors, particularly Bangladesh-Myanmar border inlets have to be visited and to be talked with different stakeholders, law-enforcing agencies, Government Officials etc. on the relevant issues. At least one In-depth interview with each categories of drug user has to be conducted to understand the demand side of the substances.

6. Estimated Budget: It is a fixed budget research assignment. The budget has to be limited within 10 lacs including all admissible taxes.

7. Selection Criterion: the following criterion will be applied to select the firm for awarding the contract:

- a. Methodology: 40
- b. Team Composition: 40
- c. Overall quality of the proposal: 20.

8. Deadline: The proposal has to be submitted to the following address by 03th April, 2017.

A handwritten signature in black ink, followed by the date '2015/12/29' written below it.
